Senior Software developer

HESEHUS A/S

Number of openings:1

Advertisement publish date: 21/11/2018

Application deadline: 16/01/2019

Start date of employment: As soon as possible

Hesehus develops ambitious e-commerce solutions on the .NET platform and is looking for a skilled software developer who wants to become part of one of Denmark's best e-commerce teams and develop business-critical solutions.

What are we offering?

You will become a part of one of the largest developer environments on Funen, that consist of more than 50 dedicated and highly qualified developers and architects. You can expect a dynamic and challenging workday, where your competences will be put into play.

We are Denmark's leading e-commerce house and we work with some of the most exciting and ambitious customers within the B2B- and B2C-market. Our product is unique as we deliver customer solutions from the market's most complete software platform developed internally in Hesehus. It allows us to work with the latest technologies like ASP.NET Core, GIT, Elasticsearch, Redis, Octopus and many more. Our projects consist of several thousand hours and involves everything from managing multi-site solutions all over the world to advanced integrations for different customer systems.

As a member of our team, you will be part of a vibrant and challenging environment consisting of highly qualified and committed colleagues. Our commitment shows in the professional work, with a strong focus on knowledge sharing and development. Hesehus Academy Fridays give you room for immersion and free play to try out new technologies. We also place great value on social arrangements both in our teams as well as across the organization. We cherish a healthy, informal and fun working environment.

Your primary tasks:

- Develop technical and complex e-commerce solutions for ambitious customers
- Define and estimate new tasks
- Interact with customers about ongoing projects
- Close cooperation with your team and across the company

Who are you?

You are experienced in software development and have a higher education within IT. You are a skilled developer with an interest in web development and hold a natural curiosity when it comes to technology.We expect you to have comprehensive knowledge of:

.NET and ASP.NET

ASP.NET MVC

C#

SQL Server

On top of your skills as a developer, you are a team player who are motivated to find the best solutions that will meet the customers' needs. You are curious by nature and keep pace with the technological development.

You are quality-conscious, goal-oriented and wants to contribute to our informal and fun working environment.

Hesehus add-ons:

- Great influence on own career with among others, staff development interview two times a year.
- Family friendly and flexible working hours
- Parental leave with good conditions
