

Project Engineer

Functieomschrijving

The Belgian dredging, environmental and marine engineering group DEME is an international market leader for complex marine engineering works.

GeoSea is DEME's specialised company focusing on rock socketing, drilling and installation services for jetty foundations and mooring systems, the installation of offshore structures, such as small platforms and outfalls, offshore wind farms and geotechnical investigations at large depths. Because of the wide variety of specialties, we are looking for motivated candidates to reinforce our team.

You are part of a team working on the realization of our offshore drilling and installation projects.

You apply your experience in a maritime environment.

You support the project manager by following up on the project progress.

You assist in the coordination of on-site activities, optimize the execution of the works and correct them if necessary.

You attend to reporting and budget and cost control.

Profiel

You are a qualified engineer or have equivalent experience.

- You are experienced in drilling or offshore installation works.
- You speak and write English and German fluently. The knowledge of other foreign languages is an asset.
- You are flexible and willing to work abroad, both in Europe and elsewhere in the world.

Jobgerelateerde competenties

De werking van installaties voor de behandeling en verwerking van materialen superviseren (bedienen, regelen, ...)

- Boringen superviseren: Maritiem (offshore)
- De exploitatie- of extractiezones bepalen De acties plannen volgens de technische, economische gegevens en de regelgeving
- Booroperaties leiden (boren, inbrengen van buizen, cementeren, ...) Persoonsgebonden competenties Plannen (= ordenen) Zin voor nauwkeurigheid hebben Zelfstandig werken
- resultaatgerichtheid

Aanbod

If you decide to work with DEME, we offer you opportunities to develop your career in a competitive multinational and international environment, with headquarters in Belgium, and projects abroad. You will be working in close cooperation with a team of motivated colleagues.

Working for DEME often means being involved in pioneering, innovative projects. We understand that our people – their expertise, creative thinking and sheer hard work – are the foundation for the success of our business. Innovation is vital in this business if we are to stay one step ahead. Because of this, DEME makes every effort to secure special talents that will make the difference and offers top quality education and training opportunities.
