

Warehouse Supervisor

As a Warehouse Supervisor you are responsible for close supervision of the warehouse operators, to facilitate timely and accurate shipping and receiving of products. You maintain good communication with team members and other departments. Beside that you will coach the team to assure a good working atmosphere and team spirit. As part of the Site Leadership Team you will work on changes that follow the site strategy.

Your responsibilities

- Responsible for all daily warehouse operations such as Receiving, PPS (Pick, Pack, Ship), Replenishment and Cycle Count.
- Assure that all orders for direct selling organizations are shipped according SLA.
- Maintain compliance with ISO13485:2016, EU MDR, ISO14001 and organization standards.
- Function as the key contact person between warehouse, customer service, supply chain and traffic.
- Assure inventory accuracy in quality and quantity.
- Manage inventory of Finished Goods and Raw Materials according procedures. Packaging material must meet industrial quality standards.
- Maintain different reports on warehouse operations, understand metrics and Key Performance Indicators. If required perform Root Cause Analysis and set actions to improve warehouse processes and performance.
- Assure daily capacity of the Warehouse to obtain high standard in warehouse operations.
- Assure that daily issues are being solved in a timely matter and inform involved parties where necessary.
- Assure that the released products are received according SLA.
- Ensure special storage conditions and handling according to the product specific conditions.
- Able to read, understand, follow and enforce safety procedures to assure that EHS is exercised according to the required standards.
- Having a helicopter view on internal processes and operations and works closely with the warehouse analyst, to drive changes.
- Having extensive knowledge on warehouse automated processes and translate theory and data into operational systems.

Requirements

- Bachelor or Master Degree in Logistics or related diploma;
- Minimum 3 years of experience in warehouse supervisor role;
- Good knowledge in reading, writing and speaking of the English language;
- Good communication skills;
- Pro-active;
- Process oriented and can make relations across the different processes and departments;
- Eager to learn and develop.
